Disinfectants to rely on

Ultra Fabica

Hospital linen disinfectant concentrate

Ultra fabica is highly effective disinfectant for hospital linen. It cleanses, disinfects all hospital linen removing all malodours and leaves pleasant lingering fragrance to the clothes

Ultra fabica is formulated with fifth generation quat molecule which gives complete protection to the linen, which is ideal for “pre-soak” as well as a ”final rinse” product which effectively cleanses and disinfects all types of hospital linen.

Ultra fabica is highly useful for treating

- Infected and contaminated linen
- Foul smelling linen
- Clothing of patients of communicable diseases.
- Blankets, gowns, undergarments and floor mops

Ultra fabica is formulated with

- High cleaning surfactants
- Chlorine free formula and suitable for any type of fabrics
- Blood dissolving capacity and total disinfection without any additional ingredients.
- Excellent softness with lingering fragrance.

Direction for use:

Pre soak infected linen in 1% solution for one hour and non infected linen for half an hour. Dilute 100 ml of ultra fabica in 10 lit water to make 1% solution.

Composition:

Each 100 gm contains

Didecyl dimethyl ammonium chloride-7.0 gm

Fragrance 0.5gm

Packing

5 lit jerry can
